Transformations Theater presents...

# The Bag Ladies

## Show

### THE STORY

Three women, in search of friends and fun, come together through the wonderful art of knitting.

Specialists in the art of arm knitting, they were asked to embark on a world tour. From Hong Kong to New York and beyond... Come join them for a demonstration of this ancient art!

Join us and witness their miraculous attempts at "Yarn bombing".

### YARN BOMBING

Yarn bombing is a type of graffiti or street art. It uses colorful blends of knitted, weaving or crocheted pieces. Yarn bombers seek to reclaim a degraded area or create a unique coexistence with nature.

It is also called yarn storm, warrior knitting, kniffiti, urban knitting or graffiti knitting.

### CONCEPT

**Contemporary masked theatre, movement and music.**

A promenade (a procession of colours, punctuated by moments of interaction with the public and the environment) followed by short scenes (individual and collective with the participation of some members of the public).

If you wish, a "yarn bombing" workshop or longer residency, this can be organised in parallel. Participants will be able to learn the sacred art of giant knitting, using their arms and recycled materials to create a colourful art installation (open to children, adults or families of all ages).
